The core principle of all AiM Sports *LearnFast*[™] data training is to reveal that data acquisition will allow the user to determine *what* the vehicle is doing, *when* it is doing it and *why* it is doing it while using AiM Sports hardware and software.

This AiM Sports *LearnFast*[™] data seminar has been designed to be very interactive with real examples of actual racing data. This seminar is not just a lecture, AiM Sports National Training Manager Roger Caddell invites questions and comments from attendees and has found that group discussion helps everybody understand the information being delivered more fully.

Seminar will cover:

- **What** is Data Acquisition
- **Why** Use Data Acquisition
- **How** to Use Data Acquisition
- MyChron 5 Hardware
- Introducing the Race Studio Software
- Practical Data Analysis

Brought to you by:

www.italianmotors.com www.simaracing.com

Seminar Location: Italian Motors USA | SIMA
529 West Front Street, Sumas, WA 98295

Cancellation Deadline: May 27th, 2020

Sunday, May 31st Trackside Data Training and Support with Roger Caddell, sign up for both days!

AiM Sports has been providing cutting-edge data and video solutions for the motorsports industry for over 22 years. From track-day users to top tier teams, when it comes to electronic instrumentation, data acquisition, and video, AiM Sports is the most trusted name in racing. Many AiM Sports products combine the functions of traditional tachometer, speedometer, temperature gauge, pressure gauge and lap timer all into one compact, high performance unit.

Roger Caddell, AiM Sports National Training Manager is a certified trainer with over 34 years of training experience and 42 years of motorsports experience as a driver, mechanic, engineer, and car owner.
